

Volunteer Litter Pickers required for the Recreation Ground

One of our litter pickers has retired from this role and we need another volunteer to help.

If you are a regular user of the recreation ground and can help with collecting any litter, plus occasional emptying of the small bins at the youth facilities and play park as needed into the green wheely bins by the access road, please contact the clerk.

We will provide gloves, a litter-picking tool, and the black bin bags.

This doesn't have to be a longstanding commitment, but it is a very important one in order to keep the ground, play park and youth facilities in pleasant condition.
